LIVERPOOL WILL HONOR MEMORY MAYOR GAYNOR UP TO GOVERNOR OF NEW HAMPSHIRE

Body Will Lie in State in Town Hall Guarded by Force of Police.

SYMPATHY EXPRESSED TO NEW YORK PEOPLE

American Metropolis in Mourning for Its Late Executive—Flags at Half Mast and Buildings Drape.

"HIS POWER LAY IN BELIEF IN HIMSELF."

London, Sept. 12.—"His power lay in his belief in himself," is the Westminster Observer's comment this evening on the late Mayor Gaynor.

"His form in office," the newspaper says "has shown what a strong, determined man can do under difficulties."

"It is hoped New York will find a successor, capable of carrying on his policy with the same self-reliance and with the same indifference to party machine."

Liverpool, Sept. 12.—Arrangements were made today by the Liverpool authorities to render full civic honors to the body of Mayor Gaynor, of New York, on the arrival of the steamer Baltic this evening.

It was expected that the body would lie in state in the town hall, guarded by a detachment of police until the time arrived to take the casket on board the Lusitania for shipment back to the United States.

The Lord Mayor of Liverpool took charge of the arrangements.

Mark of Sympathy.

"In compliment to New York, with which Liverpool has such close ties, and as a mark of sympathy with the American people," the authorities here have arranged with the steamship office to have the body transferred immediately to the town hall from the ship.

Police were assigned to escort the body to the town hall and guard it there.

According to the program prepared by the authorities the body would be removed to the Lusitania tomorrow.

The Lord Mayor today forwarded to Mayor John Kline a cable expressing his sympathy with the people of New York.

For Public Funeral.

New York, N.Y., Sept. 12.—New York was a city of mourning today for its late mayor, William J. Gaynor. Flags flew at half mast and public buildings, the city hall, police headquarters and municipal buildings were draped in black.

The board of estimates, called together by Adolph L. Kline, the mayor's successor, met this afternoon to arrange for a public funeral to be held shortly after the arrival here. The mayor's body should the steamer Lusitania, which sails from Liverpool and is due here a week from today.

Monday, September 22nd, has been suggested as a tentative date.

George McAneny, president of the borough of Manhattan, and fusion candidate for president of the board of aldermen, was designated today by the mayor's campaign managers as the place candidate for mayor to take the place made vacant by Mayor Gaynor's death.

LIBERALS OPPOSE IDEA.

London, Sept. 12.—Lord Loreburn's proposal of holding a home rule conference committee to resolve the widest attention, but liberal opinion in the provinces does not seem to be much impressed by the idea which it declares to be impracticable and unwelcome.

to him is Von Pelt, chief clerk, in the act of carving the animal. Beside him is Assistant Chief Butler and to the right is Mr. H. H. Hall, master of ceremonies.

THAW'S BATTLE UP TO GOVERNOR OF NEW HAMPSHIRE

Counsel Demand Hearing Before Executive Acts Regarding Extradition

FEAR TO PRODUCE HIM IN THE POLICE COURT

Jerome Probably Would Seize Him—Canadians Follow the Fugitive Across the Border in Sympathy.

Colebrook, N.H., Sept. 12.

The new legal battle in the case of Harry K. Thaw will probably be at Concord, N.H., before Governor Peck. The fugitive's lawyers, learning today that an extradition warrant from Acting Governor Flynn, of New York, was on the way to the New Hampshire capital, decided to defer arraignment Thaw in police court here and to demand a hearing before the governor before he acts in the matter of extradition.

They sent a request to Concord to confer with Peck and reinforced the appeal by telegram. Thaw is in the meantime, he here in the custody of Sheriff Drew.

He was last here assigned at 10 o'clock this morning, but his counsel after trying vainly to persuade William T. Jerome not to seize Thaw instantly, should the warrant from New York be honored at once, deferred bringing him into court on the ground that a preliminary hearing would bring no good results.

Fears of Seizure.

In fact, it might mean his liberation with incident possibilities it was announced shortly after noon it was announced that by mutual consent of counsel, the hearing has been put over till tomorrow morning.

Twenty-five Canadians, several of them opponents of William Travers Jerome since his arrest in Colebrook last week on a charge of gambling, and others from Sherbrooke, where Harry K. Thaw received shelter, have crossed the border into New Hampshire and revived with their coming the intense partisan feeling so evident when Thaw was in the Dominion.

Jerome denounced one of them in public yesterday.

The guards about Thaw's hotel were increased last night from 12 to 20. All chief of police Charles Kelly. The chief appointed his deputies after they had been told that Thaw might be spirited away.

May Debar the Arrest.

Ottawa, Sept. 12.—Evelyn Thaw, who has been engaged for theatrical appearances in Toronto and Montreal, according to the Ottawa Free Press, may not be allowed to cross the Canadian border.

The Canadian authorities are concerned at the advisability of refusing her admission as an undesirable.

TIME IS EXTENDED.

The time limit of territorial jurisdiction in establishing a state department has been extended for a period of 30 days on the request of the Canadian government, who claimed that they were held up pending the final settlement for 20 days and four days on account of bad weather. They stated that steel work would be in course of construction next week on this job.

THE FEDERAL GOVERNMENT'S RESPONSIBILITIES WITH REGARD TO THE MINERAL RESOURCES

A recent action upon the part of the Prince Albert board of trade which, although it receives but scant mention in the dispatches, calls for more than passing attention and is worthy of endorsement at the hands of every similar body in the prairie provinces was taken on September 10 when that institution addressed to the government at Ottawa a resolution requesting that the federal administration undertake a thorough geological survey of the northern halves of Manitoba, Saskatchewan and Alberta.

The importance and necessity to the city of Edmonton in particular and to the province of Alberta in general of some general, comprehensive and searching investigation of the mineralogical resources of the northern part of this province is at once apparent and action in the matter has been too long delayed. Central and Southern Alberta being agricultural countries with but a small diversification of industries, attention quite naturally centres upon agricultural questions to the exclusion of all others, and the possibilities of the regions which are not so inviting to the agriculturalist are quite easily overlooked or forgotten altogether.

But if Alberta is to develop into the great self-contained commonwealth which a cursory study of the natural conditions seems to indicate is her natural destiny, then some more scientific and systematic attention must be directed toward the mineral resources of the country. In the past virtually no consistent effort has been made to examine or determine these resources. From those who have undertaken the exploitation of that field we know in an unofficial manner that there are great beds of asphalt and tar sands at McMurray, sufficient to pave the roads of the whole world, and that oil has been discovered in a sufficient plastic state to promise the immediate inauguration of an industry whenever transportation is afforded. From drillers in the same country we know that there are salt beds hundreds of feet thick in the same region and from trappers and traders we learn that there are salt beds at Smith sufficiently extensive to permit of their being worked with a steam shovel. From the few prospectors in the north country are obtained more or less circumstantial stories of iron at Athabasca lake, cobalt and silver at Great Bear Lake, native copper on the Coppermine river and in Coronation gulf, placer gold at the headwaters of the Liard, galena at Great Slave lake and ochre along the Athabasca river, but all such stories are unofficial and no scientific attempt has yet been made to define the extent or value of the resources so as to make general the knowledge of the possibilities of the north country. The geological maps so far are very crude and inadequate and to all intents and purposes it may be said that the whole north country, mineralogically speaking, is even yet a terra incognita.

In order to develop for the by-products of the farm the permanent and lucrative market which is going to be necessary to the permanent prosperity of the agricultural industry of Alberta, this north country must be opened up and its resources developed. At present, owing to the steady influx of settlers and to the enormous constructive activities in railroading, there is a lively market for hay, vegetables and such products as do not lend themselves readily to exportation, but the time must come when the supply of this class of products will be more than adequate for the local market, and before that time arrives forethought demands that it be anticipated by the provision of a market at home through the development of the mineral resources of the north.

With the dominion government in possession of the resources of this province, the provincial authorities are precluded from undertaking the examination in the same manner that British Columbia, owning its resources, is able to do through its department of mines, and the duty of a geological exploration of the north devolves upon the Dominion, which, so far, has done nothing. Resolutions such as that by the Prince Albert Board of Trade might have a tendency to awaken the government at Ottawa to its responsibilities in respect of the northern mineral regions, at the same time corroborating and clinching another argument to prove that the provinces should own their own resources.

THE INJUSTICE OF THE COUNCIL ATTITUDE TOWARD DISMISSED POLICEMEN

It would be difficult to conceive of an attitude more churlish than that evidenced by the council majority toward the dismissed police officers, Wright and Edwards, when they refused them the requested investigation and told them, in effect, that they must bear the stigma of dismissal under suspicion and without the right of appeal.

Here is the delineation of the situation which cannot be controverted: Certain allegations with regard to the police force are made, among which are the charges that officers were drunk on duty, that officers were found in houses of prostitution, that officers were loafing around the pound instead of doing their duty, that officers were guilty of breaches of discipline such as to discount their usefulness as members of the force.

Immediately subsequent to the publication of these allegations two officers, Wright and Edwards, are summarily dismissed, without the publication of a reason for their dismissal.

With the allegations still fresh in the public mind, what more natural conclusion than that these men are the men to whom the allegations refer?

The men are police officers by profession. Their ability to secure further employment as such depends upon their character and record. They ask an investigation. The investigation is refused by the council upon the transparent subterfuge that the city is about to appeal against an award by the court of wages to these men in lieu of notice. In effect, the council sanctions the dismissal of the officers without a given cause and goes one step further by practically taking from them the opportunity to earn a livelihood.

The injustice of this attitude upon the part of the council majority is so manifest as to require no comment.

THE MEN WHO UNDERSTAND

The newspaper calling, somebody has said, is neither a trade nor a profession, but a public office. The members of the Alberta and Eastern British Columbia Press Association on the occasion of their ninth annual convention, now being held in Edmon-

ton, cannot be regarded as strangers, even though some of them have never visited the city before, because, forsooth, they are public opinion personified, and public opinion is omnipresent and superior to the geographic limitations which curtail the sphere of those engaged in any other calling.

The duties of the newspaperman's public office are to express public opinion and the call and its application is the same here as wherever he may be at the moment that he feels the impulse to thought struggling for expression. The newspaperman is at home wherever he hangs up his hat, and the welcome to our city is rendered more or less superfluous by the mental attitude which makes him feel a part of any community the moment he alights.

Nevertheless, Edmonton extends to the visiting editors the glad hand, confident that they will find many things in this city to furnish food for thought and certain that they will catch the true force and meaning of the spirit underlying the things they see in Edmonton's development, in its public questions and in its hopes and ambitions. The reason why the newspapermen are the greatest force in the world is because they understand.

POLICE PROVING ALTOGETHER TOO MUCH

When a member of the visiting Australian cricket team complained to the police the other evening that he had been "frisked" by a fainting young lady who thrust herself into his arms in Jasper avenue, the police proceeded at once to round up a number of females who are described in police reports as belonging to the underworld, or thereabout.

This raises a question which should be answered by the police. In fact, a double question: "How did the police know where to go to once to lay their hands on these females whom they so summarily drag to the station? And if they know that there are numbers of such women in the city, know where they are, who they are and all about them, how long have the police been countenancing their presence in the city?"

In their over anxiety, the police appear to have proved altogether too much for their own good in their anxiety to fix suspicion somewhere.

TODAY IN DOMINION HISTORY.

Francis I., King of France, who laid the foundation of French colonialization of Canada, was born on this date, Sept. 12, in 1494. He succeeded Louis XII. on the throne in 1515, a few years after Denis of Houlbert had visited the coast of Canada and declared the whole region annexed to France. This formed a basis of claim to territory and possibilities of power which might have made Francis the greatest of European sovereigns and the Field of the Cloth of Gold a reality rather than a pageant. Francis was an ambitious ruler and was eager to extend his empire in the new and unknown regions. Jacques Cartier won the King's favor for his schemes, and when that Breton mariner returned from his first voyage Francis was stirred to wild enthusiasm by new visions of empire. The monarch was so pleased with the result of Cartier's second voyage, when King Donnacona and his Indian chiefs were brought back as visible trophies for his royal eye, that he made Cartier captain-general of New France, and appointed the Sieur de Hebert first vicar of his New World empire. The latter attempt to found a settlement ended in privation and failure. Francis died in 1547. De Hebert was soon afterward lost at sea or slain by the Indians, and for half a century the attempt to found a New France beyond the seas was abandoned.

September 12th is the birthday of Dr. Francis Edward Clark, founder of the Christian Endeavor Society, at Astoria, O., in 1851. On this date the Toronto Industrial Exhibition was opened by the Marquis of Lorne, in 1883; and a hurricane of the United States, a hurricane of Prince Edward Island and Newfoundland, in 1900.

NEW ULSTER CAMPAIGN TO OPPOSE HOME RULE

Provisional Government Will Be Set up Just as Soon as Measure is Made Into Law.

Belfast, Ireland, Sept. 12.—Sir Edward Carson intends to carry on another campaign in Ulster against home rule from September 17th to October 4th. During that time he will conduct 150 meetings of the Ulster volunteer force and will attend many public and private meetings.

It is generally expected, as foreshadowed in a recent speech by Captain Craig, that at the committee meeting of the Ulster unionist council to be held at that time, a definite decision will be taken in regard to the operations of the provisional government to be set up as soon as home rule becomes law.

TODAY'S BIRTHDAY PARTY

ASQUITH, ENGLISH PREMIER.

The Rt. Hon. Herbert Henry Asquith, prime minister of Great Britain, was born on this birthday party. He is generally predicted that the statesman will soon find the cares of office, the trials of leadership and the burden of the suffragettes too great a burden for one of his years, and will retire to the easy seclusion of the House of Lords. Life has held many terrors for Mr. Asquith since he became premier in 1905, thanks to the unceasing attentions of the bathhouse-keepers led by the intemperate Eumachides, and the fact that he is a Quaker. Asquith has had to bring to bear unusual qualities of tact, diplomacy, and action in order to hold together the warring elements in the Liberal-Labor-Irish alliance. At 61, Mr. Asquith is still a youth as compared with British prime ministers in the past. Gladstone was in his 83rd year when, for the fourth time, he assumed the office of premier. Lord Palmerston was 79 when he assumed the office, and was 81 when he retired. Disraeli, Campbell-Bannerman and Lord Grey all assumed the cares of state when well past Mr. Asquith's present age.

Mr. Asquith was born in Yorkshire, Sept. 12, 1852. He was educated at Balliol College, Oxford, and became a barrister at 21. His parliamentary career began in 1886, when he was elected from East Fife. He entered the government in 1892 as secretary of state for home department, and was chancellor of the exchequer from 1905 until his assumption of the premiership in 1908.

Mr. Asquith has been twice married. His first wife died in 1891, and three years later he married Emma Alice Margaret, daughter of Sir Charles Tennant, a wealthy Scottish member of Parliament. It is said that in her youth "Margot" Tennant declared that she proposed to become the wife of the prime minister of England. One of her first acts, after taking up her residence in Downing street, was to hold an exhibition of seven designs by a Parisian dressmaker. This "seamstress" led to bitter denunciations of the offending lady, and she has never attained the high social position usually accorded to a premier's better half. When Mrs. Asquith outcried a "Saboteur" dancer at the official reception, Puritan England grew black in the face from indignation. "Dear me, how interesting," remarked Mrs. Asquith, with a shrug, when told of the disfigurement of her enemies.

Mr. Asquith, like most Englishmen, is a sportsman, but he restricts his own activities to golf. He is a devotee of the ancient Scottish game, and to it he attributes his usual good health.

ENGAGES TEACHERS FOR AGRICULTURAL SCHOOLS

Hon. Duncan Marshall, Minister of Agriculture, Secured Instructors from Chicago. On his recent trip to the east, Hon. Duncan Marshall spent a few days in Chicago, where he engaged the services of two new teachers for the agricultural schools in the province of Alberta. Mr. Marshall, Mr. Shepherd, his long engaged as instructor in agricultural mechanics, and Miss Winifred Goldie will teach domestic science. The minister of agriculture was present at the Toronto Exhibition, where he addressed a gathering at the directors' luncheon on brooders' day. He told them that live stock breeding was the first occupation on earth, and that this was the best field in which all good agriculturists preach all over Saskatchewan and Alberta. The farmers of the west, he continued, are now reaping the best harvest in their history, and are rapidly turning their profits into the very best live stock that the east has to offer.

Good Stock There. The minister of agriculture was highly pleased to see the live stock at the Toronto fair this year. He felt, he states, the tendency has been to overshadow live stock with industrial exhibits, but he was pleased to note that this is not any longer the case.

The minister announces that the teaching staffs of all the agricultural schools in the province are now complete. All the new teachers have been secured in Canada, with the exception of those engaged to teach agricultural mechanics, and as this is a new subject in Canada, the teachers were brought from outside the Dominion.

MORE TROUBLE IS DUE IN NANAIMO STRIKES

Picketers Were Arrested by Police and Strikers Are Starting to Become Militant Again.

Vancouver, Sept. 12.—With the arrest of four peaceful picketers yesterday at Nanaimo there is said to be further trouble in the coal strike zone. Orders have been issued by the court that no picketing be permitted. This is a certainty in view of the fact that it is the intention of the miners to open the mines at all costs.

Preparation is being made to start Extension No. 10 mine at Nanaimo and with this object it will be necessary to import between 2,000 and 4,000 men from any available source.

No. 1 mine owned by the Western Fuel company will probably be the first to be opened and it is even hinted that, failing success, the mine will be closed for the work. Everything points to a further period of unrest on Vancouver Island.

The University of Washington has secured the use of two sections of land on the Snoqualmie national forest in connection with its forestry courses.

BOARDS OF TRADE PUT RAILWAYS ONTO GRILL

Convention of Delegates from Western B. of T. Says Companies Are Remiss in Their Duties.

Vancouver, Sept. 12.—The great railway companies came in for a stern grilling yesterday afternoon at the convention of the Associated Boards of Trade when resolutions relating to the regulation of the granting and passing of charters and also of the land purchased and used for the laying of tracks were under discussion. The resolutions urged that the direct representation be made to dominion and provincial governments, that legislation be brought forward to govern the granting and renewal of the charters to railways and private corporations, so that a guarantee should be required that a reasonable amount of construction take place within a certain period and it shall be made impossible for a company to hold a charter for more than five years without completing construction thereon to the extent of operation.

THE GAY WORLD.

Mr. and Mrs. D. E. Hall have just returned from Calgary where they were the guests of Mr. Hall's sister, Mrs. A. P. Turnbull.

Reservations have been made at the King Edward hotel for Lord and Lady Clarendon who are expected to arrive in the city some time today.

Mr. H. B. Dawson, south side, was the hostess of a smart garden tea on Wednesday. Mrs. Dawson received her guests on the lawn in front of the house, wearing a costume of sage blue satin with flowered chiffon overlays and large black velvet hat with white ostrich. The tea table set under the shade of the trees was decorated with a large crystal bowl of shaded dahlias on a Florentine lace centerpiece. At the four corners were small crystal vases holding pink sweet peas. Mrs. Peel, Mrs. Malone and Mrs. Billy Inglis were in charge for the first hour, and afterwards Mrs. DeWitt, Mrs. Skinner and Mrs. Duggan. Assisting were Miss Morkin, Miss Ryan, Miss Skinner, Miss Shannon and Miss Gladys Major.

Miss Nora Armstrong, sixteen st., was the hostess of a very delightful tea on Wednesday for Miss Fannie MacSwen, Miss Armstrong was in pink. The guest of honor, Miss Fannie MacSwen, was in blue, a dress of crepe velvet and jet jewelled buttons. Mrs. Charles Hepburn gave a jolly dinner party the other evening for Mrs. Beals of Buffalo, and Miss Lessard, an English visitor to town. Places were set for 12 at a dinner table beautifully arranged and centred with a cluster of pink and white asters in a big cut-glass bowl. While the coffee was being served in the music room, Mr. Watson, of Atlanta, Georgia, a talented musician who is visiting town, played a number of piano solos.

Mrs. William Hunt gave a charming little tea yesterday for Miss Joan Macdonald, who is leaving town on Sunday, much to the genuine regret of a great host of friends. Mrs. Hunt wore a becoming frock of dusty purple satin combined with shadow lace and touches of yellow.

Mrs. Macdonald was in linen with black and large black hat. The tea table was set with a great cluster of yellow daisies and cunning wicker baskets of nasturtiums. Small tables were set out in the big rose-garlanded dining hall of the very newest hotel, and long tables with delicious luncheon dishes. As there were about three men for every woman present, the service was excellent. The officers of the local women's press club were present. Mrs. Murphy, Mrs. Ambrose Dickins and Miss Marie Nunan.

Papers Discuss "Life After Death" Speech

London Times Calls Sir Oliver Lodge's Inaugural Address "The New Agnosticism"—Not as Sensational as Was Expected

London, Sept. 12.—The reports that Sir Oliver Lodge, in his inaugural address before the British association at Birmingham Wednesday night, would go further than he had ever done before in declaring his well-known belief in the possibility of communication by the spirit of the departed with this world, and that his remarks would be in the nature of a reply to the materialistic argument with which Prof. Edward Albert Schaeffer opened the last congress, proved to kindle general interest to a considerable degree.

The address, although it did not quite come up to expectations at a general session, has been the subject of broad discussion among the scientists who listened to it and others who have read the full reports, published in the large papers. Most of the papers make editorial reference to the views enunciated. The Times under the heading "The New Agnosticism," says:

"The whole discourse is a protest against arrogance. In recent years science has been asserting its claims against doctrine. Perhaps some over-association was necessary but over-asserting them certainly was not. The public voice to find that they had only exchanged one priesthood for another. The laws of science were more numerous than holy writ. Nothing which could not be weighed or measured."

NEW LIST OF OFFICERS.
The Humane Society elected a new list of officers yesterday at the first meeting of the fall season held in St. James' school room. The new list is: Mrs. George Maund, president; Mrs. Emery, vice-president; Miss Margaret Maund, secretary; and Master Emery, treasurer.

The meeting decided to continue the Humane Society Jottings in the Capital under the editorship of Mrs. Maund. It was decided to hold a dance in the Separate school hall on November 6th.

Dr. Morton L. Rose, Mrs. Rose and Mrs. Ruth and Master Oden, who have just recently come to town, are at present the guests of Mr. and Mrs. Harris, 1519 Twenty-sixth street. Dr. Rose is the new pastor of the Church of Christ.

Miss Coghlan at Empire Next Week Costumed Part of Spy in "Disraeli."

One need not draw greatly upon his memory to recall the manner in which the wrapped heroine and the adventures of the past in the play of 15 or 20 years ago; the heroine in black, the adventures in scarlet—these are the symbols entitled to play upon one's sympathy. Nowadays, however, actors are beginning to think with the advanced thoughts of authors.

In dressing Mrs. Travers, the spy in "Disraeli," in which George Arliss starred recently, Miss Coghlan put her mind to work upon the subject and evolved creations worthy to signify villainy. She was to the theatre and performed for her details after building up her foundation, which consisted of pure white and cream, and then there is some good in every woman, though she is a villainess, she is a villainess as black as ink, so she took the little white as her base.

One of the points was of white silk, with a plentiful sprinkling of huge, bold, black spots. The effect was shown that there was still some spark of womanhood left in the character. The dress was not in the least of the villainess in the subtle influence of perfume upon the audience. With the white and cream, a large bouquet of poppies, with lilies of the valley as an accompaniment of perfume. Upon her ivory white face were the voluptuous poppies. Thus in detail she carried out the same note which she struck in her gown.

WESTERN CANADA IS GOING TO HAVE A WONDERFUL YEAR

Predicted That It Will Be on a
Better, Safer, and Sound-
er Basis.

LEGITIMATE BUSINESS PROVES SATISFACTORY

Retiring President of Associ-
ated Board of Trades Says
Truer Economic Conditions
Are Coming.

Winnipeg, Sept. 12.—In his address
to the Associated Board of Trade of
Western Canada at their convention
yesterday, Mr. Ishler, of Saskatoon,
the retiring president, voiced his
conviction that the present year will
prove one of the most remarkable in
the history of the west, a year which
historians will refer to as herald-
ing a truer economic condition, and a
better, safer and sounder general basis.
During the year they had seen the
passing of historical real estate ac-
tivity when men looked to such specu-
lation as their main source of revenue,
and considered their legitimate busi-
ness as a mere side line.

We have also witnessed the pass-
ing of the subdivision shark. He has
mercifully relieved us of his unwell-
come presence. His operations have
been pernicious and have affected all
western cities," continued the pres-
ident, adding that it is certain that
every thoughtful westerner detest-
ed the parasite who had fattened upon
our prosperity and the credulity of the
world beyond, and whose small and
dirty spirit can never know the faint-
est impulse of honest patriotism.

"It is my hope that provincial leg-
islation will render such abuses impos-
sible in the future, and I congratulate
the citizens of Calgary upon their re-
solute initiative toward that desirable
goal."

While convinced that there would
be no such money in future western
realty and land investments as in the
past he predicted that it would be in
a safer and surer way.
Speaking of the crop, President
Ishler said he had travelled extensively
over the country, and had been
impressed at the magnificent character
of the crops. He had never seen crops
that averaged better.

"Notwithstanding the scarcity of
money, legitimate business in pretty
nearly every line has been most satisfac-
tory. Now, just so long as this is the
case, it must be obvious that Western
Canada has not suffered in any impor-
tant sense," added the president.

IDENTITY PROVED BY A BIRTHMARK

Murdered Woman Known, Al-
though Her Head Has Not
as Yet Been Found.

New York, Sept. 12.—The woman
who was murdered 10 days ago and
whose body was cut up and thrown
into the Hudson river, was identified
yesterday as Mrs. Casper Janin, of
this city. Although the head, arms
and legs are missing, the body was
identified by a mark on the back. The
woman's husband made the identifica-
tion and told the police she had dis-
appeared from her home on August 14.
The identification was made at the
mortuary in Hoboken.

Casper Janin, the husband, told the
Hoboken police that he and his wife
lived at Barcelona, Spain, up to about
three years ago, when the woman left
him and came to this country.
Janin said that he followed her soon
after, and found her living at a house
on West 104th street, New York.

Janin was positive that the marks
on the back of the body, which he said
were birthmarks, offered an unmis-
takeable means of identification.
Mrs. Janin's mother, he said, had
similar marks on her back, and the
same mark appeared on the shoulder
of their child, who is six years old.

The police immediately set out to
find the man whose name Janin gave
them as the proprietor of the house
on West 104th street.

HIGHWAYMEN ROB WOMAN AND BREAK HER FINGER

When Caught They Say They Took
Her Money Because They Were
Hungry and Wanted to
Buy Food.

Morrisstown, N. J., Sept. 12.—Mrs.
Edward Carr was attacked by highway-
men yesterday and robbed of her hand-
bag and a gold watch. In their haste
to get the loot, the thieves broke one
of her fingers and bruised and scathed
her. The pocket-book contained
\$8 in bills and some change.

Acting Chief Morrison sent out men
on motor cycles and in automobiles,
who found the alleged robbers and
put them under arrest.

Spoken of the crop, President
Ishler said he had travelled extensively
over the country, and had been
impressed at the magnificent character
of the crops. He had never seen crops
that averaged better.

FIGHTING COMMON WITH ESKIMOS IN UNCIVILIZED STATE

Report of More Trouble in the
North in Which Four
Combatants Killed.

BOW, ARROW AND THE
SEAL KNIFE, WEAPONS

Natives Live Entirely on Musk
Ox, Using Hide for Cloth-
ing—Special Patrol to Go to
Scene.

Ottawa, Sept. 12.—Following the
news of the death of R. V. Radford
and George Street at the hands of Es-
kimos, Comptroller Fortescue, of the
North West Mounted Police, received
a report today from Sergeant W. G.
Egerton, of Fullerton, through the
Post Churchill post, of a fight between
Eskimos in which four were killed.
The fight took place at Post's river,
north and west of Schults Lake. The
cause of the trouble is not known.
None of the natives have rifles. The
only weapon that they used is the
bow and arrow and seal knife.

Sergeant Egerton, in his report, ad-
ded:
"Fighting is common amongst the
band of Eskimos who are not civilized,
not coming into contact with any
civilized people, and they are in the
country north of Coronation Gulf
and along the Thelon river, and live
entirely on the musk ox, using the
hide for clothing."

The report of the fight comes from
a native named Ka-Ka-Mo.
Superintendent Deners, commander
of the Mounted Police at Churchill, re-
plied that he is going to send a
special patrol to find out more about
the fight and also the death of Rad-
ford and Street.

Supl. Deners says that he will
send a strong escort as it will prob-
ably be necessary to make a number
of arrests.
"These natives," he adds, "will most
probably resist arrest and it is impos-
sible to depend on local help. This
patrol would have to stay in this coun-
try at least a year, if not two. I will
report further on my return from Full-
erton and will also make arrange-
ments for above party."

BOTH WORKER AND EMPLOYER BOUND

New Zealand Premier Intro-
duces a Measure With Far-
reaching Effects.

Wellington, N. Z., Sept. 12.—A
measure which is likely to have far-
reaching effects on the industrial world
was yesterday introduced in the New
Zealand parliament, being an arbitral
act. This was introduced by Hon. P.
W. Massey, the premier.

This measure renders the worker,
who is bound by an award by arbitra-
tion and who participates in an illegal
strike, liable to a penalty of £10 and
the employer who is similarly bound
and who illegally locks out his work-
men liable to a fine of £500. A trade
union is also made liable if the major-
ity of its members participate in an
illegal strike and the court may cancel
its registration.

In the case of the industries outside
the scope of the conciliation and arbi-
tration act, a secret ballot must be
taken and notice must be given before
the strike is declared. Otherwise the
men are liable to the same penalties as
in the case of an illegal strike. The
employers are similarly bound.

SIR WILLIAM VAN HORNE IS GIVEN GREAT PRAISE

Long Appreciation Is Printed of Cana-
dian Railway Builder in the
London Times.

London, Sept. 12.—Sir William Van
Horne, by his vision, his resources, his
tenacity and his breadth of view, stands
foremost among the makers of Canada,
according to a column and a half ap-
preciation of the great Canadian rail-
way builder's life work contained in
this morning's Times. This journal, in
the course of a series of character
sketches of representative Canadians,
gives vent to a glowing eulogy of Sir
William, pointing out that the latter has
not been much heard from since the
unfortunate political contest of two
years ago over the Washington trade
agreement. When he withdrew from
the active direction of the Canadian
Pacific railway his name seemed to
pass out of the press of Canada, but
made its reappearance when news
promptly became an issue in the politics
of the country.

WARNING IS ISSUED TO THE BRITISH MERCHANTS

London, Sept. 12.—A Johannes-
burg dispatch to the Daily Telegraph
referring to a visit to Mr. O'Dell of the
department of commerce at Washing-
ton to inquire into the market openings
for cotton goods in South Africa, says
that Mr. O'Dell anticipates large busi-
ness from the South Africa, especially an increase
of the wool imports, under the new tariff
act.

A warning was issued to British
merchants and manufacturers on the
necessity of defending themselves un-
less they want to be left behind.

WAR ELECTION IS NOT SATISFACTORY

America Not to Recognize
Mexico If All People do Not
Have Choice.

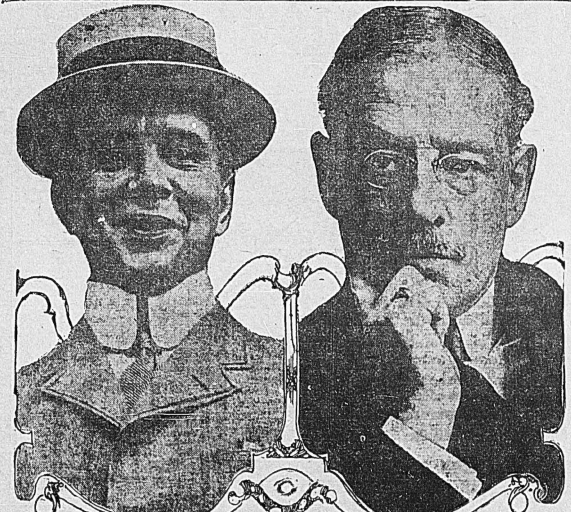

Washington, Sept. 12.—Adminis-
tration officials here are convinced that
the Mexico City authorities have no
plan of their own to bring about peace
in Mexico.

The United States will await with
interest the election scheduled for Octo-
ber 26, but does not feel bound to re-
cognize the government resulting from
that election. Should an election be
attempted while most of the country
is still up in arms and in which a ma-
jority of the people shall have had no
choice, the American government will
adhere to previous precedents and will
withhold recognition.

These are the ideas expressed by of-
ficials in administration circles who
know the position of President Wilson.

PELKEY MAKES DENIAL OF CONFESSION STORY WIRES BURNS HIMSELF

Championship Claimant in Victoria is Coming to Calgary to Meet Burns—Says Story Was Absolute Fake From Start to Finish.

Calgary, Sept. 12.—That one of the biggest fakes that has ever been pulled off in the history of the Associated Press was created when the story of the "confession" of Arthur Pelkey was flashed over the wires, seems now assured. That Pelkey never saw nor heard of the confession is evident from personal messages which were received yesterday.

As soon as the story broke the Morning Alberta wired a personal message to Pelkey, asking him to confirm or deny it. Yesterday morning the following message was received: "Victoria, B.C., via Fernie, B.C., Sept. 10.

"Joe Price, "Morning Alberta, Calgary, Alta.: "Have not broke with Burns. Other matter I cannot understand. Will arrive in Calgary in a few days. (Sgd.) ARTHUR PELKEY."

Other messages of a similar nature were received by the sporting editors of the two evening papers and one was received by Burns himself.

Although the story created a big sensation here in Calgary, everyone seemed to doubt the truthfulness of it. Some people secretly wished it were true, but no one in touch with the pugilistic game in this city regarded it as strictly true. There were several flaws in it which branded it as false, the most palpable of which was the part about Burns "forcing" Pelkey to sign an agreement to go on the vaudeville tour while Pelkey was "in jail." Pelkey never spent a minute in jail during his entire stay in Calgary. As soon as it was learned that the McCarthy-Pelkey deal had resulted, fairly, Burns were arranged for Pelkey.

Another feature which was rather queer was that about Pelkey crawling into Burns' house by the back way. In order to do that, Pelkey would have arrived in Calgary at night, as the rear of Burns' house is almost flush against the banks of the stream.

The origin of the story is a mystery which will not be solved for some time. However, Mr. Burns intends to trace it to its source and promises to get his revenge. The story has caused him a great deal of suffering, and his family have suffered even more than he. He will probably resort to the courts and bring charges of criminal libel against the originator of the story.

The confirmation of the story which was received from Victoria is a mystery which will not be solved until Pelkey arrives. Pelkey will probably arrive in Calgary on Sunday and his version of the story will be awaited with interest.

AGREEMENT FOR YACHT RACE IN LIPTON'S HANDS

On Board His Yacht Enchantress Sir Thomas Announces His Intentions.

Ryde, Isle of Wight, Sept. 12.—The signed conditions for the America cup regatta next year were received by Sir Thomas Lipton on board his yacht Enchantress yesterday. Speaking at a large dinner aboard the yacht, Enchantress, Sir Thomas said that it took nearly seven months to arrange the contest and he more than once feared that the regatta would be abandoned. "While I was personally always willing to race under any conditions with a 90 or a 75 footer," he continued, "I had to be careful not to agree to terms that would impose any undue handicaps on future challenges on boats from this side. Several times I was advised to withdraw my challenge, but I stuck to it, and now the signed conditions are in my pocket."

"I am glad that I did it perfectly satisfied with them. I am true that they do not compel Americans to meet me with a boat of the same size as the Shamrock, but I was always convinced that this would be done."

He found assurance of this in the announcement that Cornelius Vanderbilt, J. P. Morgan and Frederick G. Bostum had joined the syndicate to build the defender.

"Three better" representatives of the world," he said. "They are giving Herreshoff a pretty tall order, but I doubt if they can do it."

Sir Thomas expressed the belief that Nicholson, who is building the Shamrock, was the finest designer in the world, and that Burton, who will command the challenger, knows how to steer a victory. Nicholson was getting on well with the Shamrock, and although it would be the first boat built in Great Britain under the American racing rules, it would be sure to hold its own.

Both the challenger and the defender under the conditions signed, said Sir Thomas, will be better types of useful yachts than the franks that was formerly compelled to cross the Atlantic with, and I can say without hesitation that I have a better chance of winning the cup than ever I had before.

In conclusion he commended the sportsmanship of Americans and his treatment at their hands.

"Don't Eat Them ALL, Grandpa!"

It's no wonder Maple Buds taste good, and it's no wonder mothers everywhere are encouraging the little folks to spend their pennies for them.

Maple Buds are nothing more than the best of chocolate, pure milk and sugar—things the doctor would recommend to build up a sickly child. The most delicate child can digest them.

The distinctive flavor of Maple Buds is entirely due to the use of the best chocolate. The fine velvety texture comes from grinding and grinding through innumerable steel rollers.

POLITICIAN ELOPES WITH YOUTHFUL GIRL

Ex-Congressman, 50 Years Old, Marries
Girl Who Says She Is 21 Years
of Age.

Washington, Sept. 12.—George Curry,
one of the most picturesque mem-
bers of the 62nd congress, eloped last
night to Rockville, Md., the capital's
Gretna Green, and married Miss Mar-
tha C. Oaks of Uniontown, Penn. Cur-
ry is 50 years of age, while his bride
gave her age as 21. Objections by the
young woman's parents to the match
are said to have precipitated the run-
away wedding.

Curry served as sheriff of several
counties in New Mexico, in the fron-
tier days, saw service in the Spanish
war as a captain in Roosevelt's Rough
Riders, fought later in the Philippines
as Commander of the Philippine
Scouts and later governed several pro-
vinces in the archipelago. He was
elected to the 62nd congress, but did
not seek re-election.

SPORTOGRAPHY.

McGovern Defeated Palmer
In Close to Record Time.

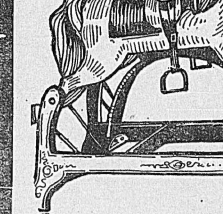

The report that these ancient pugilists
enemies, Terry McGovern and Young Car-
roll, are to become vaudeville acts, and put
a brother act on the patrons of the two-
day houses, recalls that today is the an-
niversary of McGovern's fight with Ter-
ry Palmer, which was staged at Truckee,
N.Y. Sept. 12, 1907.

The preliminary festivities were some-
what of his admirers, and a huge land
and a procession followed him to his hotel.
A lot of prominent Englishmen came over to
see the match, including the famous Lon-
don sport and president of the National
Sporting club, and Sir Thomas Lipton was
among those present at the battle. The
conductors and the Vaudeville and other
leaders of the wealth and fashion of the
American metropolis greeted the occasion
with their presence. Politicians, includ-
ing Dick Croker, actors, literary men and
other celebrities were as prevalent as mosquitoes
at Manhattan-by-the-Sea.

McGovern, a clerical man, and one of the
best known officials of the upper house,
died yesterday at the age of 70, of paraly-
sis. He had been ill for a number of
months. The deceased had been an em-
ployee of the dominion government since
1902.

Made Wonderful Recovery When Dr. Hamilton's Pills Were Used.

"I was never actually sick," writes Mrs. Norman La Pierre, wife of a

"yet I never could get strong like other women. I ate well enough, but somehow rich and red blood I could never make. When I married I took a great pride in my housekeeping, but it kept me tired all the time. Mrs.

Leechance, my neighbor, looked well —she told me her health had been made up by Dr. Hamilton's Pills. I only thought of pills as a physic; but now I know that Dr. Hamilton's Pills are more, for they quickened my stomach, liver, and bowels—made me

color in my cheeks as I never had before. I sincerely believe Dr. Hamilton's Pills should be used by every woman—that's why I write this letter."

No medicine invigorates and renews health and spirits like Dr. Hamilton's Pills, 25c per box, five for \$1.00, at all druggists and storekeepers, or postpaid from the Catarrhzone Co., Buffalo, N.Y., and Kingston, Ont.

TOO CORDIAL AN AGREEMENT.

"That's what everybody says," gurgled the ingenuous maiden.

Billionsness

When the liver refuses to work there is no remedy like the combination of dandelion, marsh-mallows and other ingredients in Farnellee's Pills. They bring help to the digestive organs, they do not gripe. They stimulate natural action. They drive out the undigested food.
